Mission Statement

Everything we do, as a team, is aimed at providing the very best possible educational and life opportunities for every child.

Our curriculum aim for Early Years is to provide an inspiring, rich and exciting curriculum that encompasses both 'Development Matters' ages and stages alongside 'Characteristics of Effective Learning'. We plan activities across the seven areas of learning to ensure each child receives a broad and balanced curriculum both indoors and outdoors.

One of our many strengths and one that we are proud of, is that we focus on the individual needs of every child. Following our school motto, all staff believe that every child has the potential to 'Be the Best You can Be'. We endeavour to provide them with all the opportunities that they need now and in their future. Our children deserve the best!

Through a creative and nurturing approach, we aim to actively engage, inspire and enable our children to flourish and grow to their full potential. We work as a team to design learning experiences that engage all learners in thoughtful and real experiences.

The staff work as a team to offer a tailored curriculum to maximise pupils' interest and curiosity for learning. We strive to provide pupils with a variety of first-hand experiences to stimulate their learning, whilst placing a strong focus on life skills and the next stage of school readiness.

4. Learning and development

4.1. There are seven areas of learning and development that shape pupils' education. These are split into two groups: prime areas and specific areas.

4.2. The prime areas are:

- **Communication and language**
 - The school gives pupils the opportunity to experience a rich language environment, and to develop their confidence and skills in expressing themselves.
- **Physical development**
 - The school provides opportunities for pupils to be active and interactive, and to develop their coordination, control and movement. Pupils are helped to understand the importance of physical activity and make healthy choices in relation to food.
- **Personal, social and emotional development**
 - The school helps pupils to develop a positive sense of themselves and others to enable them to form positive and respectful relationships. Pupils develop social skills and learn how to manage their feelings and behave appropriately in groups, and to be confident in their own abilities.

4.3. The specific areas are:

- **Literacy**
 - The school encourages pupils to link sounds and letters, and to begin to read and write. To assist pupils in doing this, the school gives pupils access to a wide range of reading materials.
- **Mathematics**
 - The school provides pupils with the opportunity to develop their skills in counting, understanding and using numbers, and working out simple addition and subtraction problems. Pupils are taught to describe shapes, spaces and measures.
- **Understanding the world**
 - The school guides pupils to make sense of the physical world and their community through opportunities to explore, observe and find out about people, places, technology and the environment.
- **Expressive arts and design**
 - The school enables pupils to explore and play with a wide range of media and materials and provides pupils with the opportunity and encouragement to share their thoughts, ideas and feelings through a variety of activities including art and music.

4.4. **Learning strategies**

- Everyone has their own learning style, and we recognise the need to develop strategies that allow everyone to learn in the ways that suit them best, including using visual, auditory and kinaesthetic resources.

- Staff members will ask open-ended questions and challenge pupils to re-examine and extend their understanding of the world.
- Pupils' personal interests may be used as a basis to develop and extend their skills and knowledge by relating learning intentions to pupils' own life experiences.
- All pupils will be encouraged to make and modify plans as a method of ensuring that they review and reflect on their own learning.
- Evaluations of individual pupils' learning will be used to inform future planning.
- Open-ended resources will be utilised to support exploration and critical thinking, as well as providing provocations to enthuse and motivate pupils.
- Learning objectives will be shared with the pupils and parents – setting clear expectations for what pupils are expected to achieve.

4.5. **Learning through play**

- Play is essential to pupils' cognitive, imaginative, creative, emotional and social development. We aim to provide play experiences which have a balance between adult-led and child-initiated play, allowing pupils to explore their own ideas and apply what they have learnt in different situations.
- Pupils will be able to explore at their own pace but are given consistent boundaries.
- Staff members will be actively engaged in pupils' play, either by undertaking careful observations or by joining in with the pupils in order to develop their activity.

- 5.9. We recognise the positive impact that outdoor learning can have on pupils' wellbeing and development; therefore, we ensure that pupils are given regular opportunities to work outside.

 - The use of natural materials.
 - Learning about growing and the living world.

- Research and experimentation.

 - Physical play and movement.
 - Imagination and creativity.

- 5.13. Educational visits are arranged in the Reception year, in order to further expand pupils' learning experiences. Prior to a trip, a risk assessment of the space is carried out and it is ensured that the area is appropriate for the activity and pupils involved.
