

25th March

Dear Kingfisher,

We hope that you are all staying safe at home and that you are able to get outside when possible, in a safe manner. The daily tasks are listed below, and after that we are giving you work which can be done in line with your usual timetable.

Daily tasks:

Times Tables - TT Rockstars or any practice that helps you develop and retain fluency.

Reading - Read for 20 minutes every day. See if you can find a new, interesting place to read each day! Audible has opened up its children's books section for free – so download something different and get it to read to you!

Audible Stories - 100s of kids' audiobooks for free. Just click, stream and listen:

<https://stories.audible.com>

Spellings - Please continue to learn and USE the year 5/6 statutory spellings. Choose 10 and try to write a sentence incorporating one of each in the correct context – see if you can get more than one into a single sentence. If you do not have a list, look on Twinkl. There are lists for Year 3 and 4 words and Year 5 and 6 words.

www.twinkl.co.uk/offer

Go on to **Spelling list Year 3 and 4** for lists and word searches.

Spelling list Year 5 and 6 for list of spellings and crosswords using these spellings.

Activity - Don't forget that at school you have a run around twice a day during break and lunch. It's up to you what activity you do at home but it is important to keep a routine going. Rather than setting PE for you each week, try to join in with the Joe Wicks live school workout sessions. It will happen each day on You Tube at 9 a.m. You don't need any equipment or kit – just get moving – it will be a great way to start your day – and you'll be doing it with hundreds of other children around the country!

How to join in Joe Wicks Body Coach PE lessons for kids

Go to [The Body Coach TV](#) on YouTube and simply join in the 30 minute workout from 9am.

English and Maths

To give your child a set of fully planned and accessible tasks to do at home, we are recommending Hamilton Trust's website. They have a daily lesson for both English and Maths for Year 6.

There are five lessons for each subject in Week One, which will take your child up to and including Tuesday 31st March.

<https://www.hamilton-trust.org.uk/blog/learning-home-packs/>

- **Year 6 Maths - Download Pack for Week 1**
- **Year 6 Maths - Download Pack for Week 2**

- **Year 6 English - Download Pack for Week 1**
- **Year 6 English - Download Pack for Week 2**

It is not expected that you do Week 2 but if you wish to continue, there is more there to do. The English is centred around Harry Potter!
These activities are differentiated.

For **French** this week, log in to Linguascope and learn the vocabulary for Easter in French.

Go to www.linguascope.com – the username is wicklewood and the password is wickle01. If you go into the Beginner section and click the French flag then look for Occasions spéciales and then click on Paques. Listen to the presentation before trying out the games – always try to repeat the pronunciation when you hear it. See if you can find out about how Easter is celebrated in France.

Music

Desert Island Discs – (Based on the popular Radio 4 programme)

This is an opportunity for you and your family members to select 8 pieces of music that are special to you and to tell each other why you have chosen them. You can then take them to your Desert Island, as well as The Complete Works of Shakespeare, The Bible and a luxury item of your choice! If you want, you can narrow it down to the one piece that you want to take above all the others.
