

Monday

A friend brings some goat food for the 3 Billy Goats Gruff. There are 12 bags of goat food. How many bags will each goat get each?

You need to do some sharing to find the answer!

Tuesday

The goats want to build a new bridge to cross the river. Each goat carries 5 planks of wood. How many planks of wood do the goats have in total to build the bridge?

You need to do some grouping to find the answer!

Wednesday

There are 16 goats in a field. Half of the goats cross the bridge. How many goats are still in the field?

Thursday

The troll is really hungry today. He has 14 snacks left under the bridge. He decides to eat half of them in the morning and half of them in the afternoon. How many does he eat in the morning? How many does he eat in the afternoon?

Friday

The troll is cross. The goats have invited some friends across the bridge to join them in the field to eat the fresh green grass. 2 more families of goats with three in each family cross his bridge. How many times does the troll hear a goat trip-trapping across his bridge?

You need to do some grouping.
