

KINGFISHER CLASS AUTUMN 2

The children have had a good start to their time in Year 6. They are starting to understand the need to be good role models and have enjoyed being paired up with their Reception buddies this half-term. Already, the children have learnt a lot in 7 weeks and been on a great trip to Thetford Forest and Fighter Command (Bentley Priory). They have also been part of DanceEast's online performance classes which have been about community and unity.

Second Half-Term Learning:

In the core subjects of English and Maths, the children will be writing sonnet poetry for Remembrance Day and writing a news article based on events during The Blitz as well as continually learning about different aspects of grammar, punctuation and spelling. Maths will mostly be based around multiplication, division and fractions. The topic of The Battle of Britain will fuse into learning about the effects of WW2 on every day people. This will include an Art topic based around the shelter sketches of Henry Moore. In Science, the children will finish learning about light and begin a great, practical topic on electrical circuits. In other foundation subjects, they will be making automata toys in DT, playing Handball in PE and learning about the weather in French.

KINGFISHER DATES FOR YOUR DIARY:

- Parents' evenings Week Beginning 11th November
- 15th November- Children in Need Day.
- 11th December- Christmas dinner and Jumper day.
