

SWIFT CLASS AUTUMN 2

Swift Class have had a wonderful start to the school year. Some highlights include our trip to the Time and Tide Museum, where we got lots of inspiration to write our own exciting pirate stories, as well as creating our own Zones of Regulation monsters in PSHE. We also built and tested the strength of chocolate roads to complete our exploration of materials in Science!

We have got lots of exciting learning to look forward to in Autumn 2. In English we will be learning about information writing, exploring our theme of recently discovered islands.

In Maths, we will be learning about measuring, comparing and ordering lengths and exploring how data is shown on graphs. We will also begin to look at multiplication and division.

In Science, we will be looking at living things and their habitats, learning about plants, food chains and the journey food makes from farm to supermarket. We will also be designing our own microhabitats that are suitable for life.

We will also begin our longitudinal study of our very own class tree, the beautiful oak situated in Forest School. We will begin studying and observing our tree and documenting our findings in our floor book.

We have also got the whole school visit to the pantomime to look forward to and, of course, a very fun and decoration-filled run-up to Christmas.

Important dates/information

This half term, we will have Forest School on Tuesdays and PE on Mondays. Any changes to this will be shown on our timetable, published weekly on the school website.

December 9th - whole school trip to the pantomime

Reading records will be checked and Big Cat Collins books changed on Thursdays. We will visit the library to change our library books on Friday afternoons.
