Wicklewood Weekly

Pupils in Years 1-5 have been hard at work this week with summative assessments. We use these assessments to help judge pupils' progress towards their yearly objectives in reading, writing and maths and they help us compile yearly reports and aid transition into next year's classes.

From the 11th of May, Year 6 will be completing their SATs tests during the week. They have worked incredibly hard to make lots of progress before they begin their transition to high school after half-term.

Thank you to John G Plummer & Associates who attended school this week to carry out a free dental check for our children. Finding an NHS dentist can be really difficult these days but please click the below link to find availability in your area.

<https://www.nhs.uk/service-search/find-a-dentist>

For any urgent dental treatment you can contact 101 who will be able to find you a dentist.

Snacks

Morning break time snacks should be healthy choices such as fruit or vegetables. Please remind your child not to take food from their lunch to eat at break. We have had an increase in dropped food and litter in the playgrounds which can attract vermin from the field. KS1 pupils have access to fruit or vegetables throughout the day. We will remind all pupils to put wrappers or leftovers in the correct bins and to not take food from their lunchboxes. Please make sure that any snacks are nut free.

Medication

We have had a few instances recently of children coming into school with medication without the correct forms being filled in from the office. If your child does need medication for any reason, please ensure that this is dropped off at the school office.

SEND

Not getting enough sleep has big effects on the whole family. It affects physical and mental health. When you and your child are sleep deprived everything can feel harder. The advice that is given to all families to help with sleep problems is a good place to start. Bedtime Routines

- Start at the same time each night
- Have quiet, screen free playtime
- Bath
- Snack, drink and story time
- Try and keep the wake up time the same – even after a bad night.

If your child does not settle – go to them and reassure them that you are nearby and leave the room as soon as they are calm again. You might have to repeat this many times but will build their confidence that you are there when they need you.

Keep to it even if you don't think it is making a difference – routines take time.

Rupert

Word bank: walked, looked, saw, crept, took, appeared, chased, held

K
 Kassim walked to the dark forest.

He looked inside the cave.

He took a pile of golden jewels.

Slowly, he crept into the cave.

He saw 3 shining diamonds.

Suddenly, a huge dragon appeared.

The dragon chased him through the forest.

Dates:

4 May-Bank Holiday

11-14 May-Year 6 SATs week (No absence will be authorised during this week)

20 May- Sports Day

22 May-Year 4 West Stow Trip

25-29 May - May Half Term

Every Day Matters

It is a statutory requirement for children to attend school every day.

This week's winners are Starling Class with 98%!

We kindly ask that you check your child's hair for head lice, begin treatment if required. Regular checks are the best way to prevent re-infestation. Treatments are available from pharmacies, and your local pharmacist can advise on the most effective options. Please see NHS link for more guidance [Head lice and nits - NHS](#)

To help us minimise the spread, please:

- Check all family members' hair.
- Tie hair back where possible
- Treat anyone found to have head lice immediately.
- Continue to check hair regularly over the coming weeks.

Clubs

We still have places for the following after-school clubs:

Writing
Mindful Colouring
Tag Rugby

Warm Weather Reminder

As the weather gets warmer, please ensure your child comes to school with a named sunhat and sunscreen.
