

Swift Home Learning - Week of 8th May 2023

This is a flavor of things we have been studying in class last week and will be this week. I would love to see any learning you do at home, please bring it into class so I can enjoy seeing it.

Spellings

Should, would, could, who, whole, Mr, Mrs

English

Now you have learnt our new story for English; Kassim the Greedy Dragon, with the actions. This week see if you can perform it to someone at home. Remember the performance needs rhythm and a clear voice

Maths

We have been continuing to look at addition and subtraction of 2 digit numbers. Make a numberline and use this to practice the following calculations. Can you write a word problem using one of these calculations?

a) $23+7 =$ b) $32+9 =$ c) $25-7 =$ d) $32-4 =$

Science and Geography

On Friday we are off to Hickling Broad to look at habitats, building on work from last term which we will be continuing. With your map skills from class can you locate Hickling Broad on an OS map of Norfolk or Google map? From the map think about what physical and human features you might expect to see on Friday.

Reading - I'm looking forward to hearing about books you have been reading at home, by yourself or with family members. Please come and tell me about them. Also don't forget to be prepared with your Joke of the Day should you wish to share one.
