### Reading & Writing

This week in English, we started our unit on persuasive writing by pretending to be salespeople advertising both our favourite toys and a fancy Roman villa. Can you create a travel brochure advertising your dream travel destination for a summer trip? Don't forget to use persuasive language!

## **Maths**

In maths, we are recapping all the strategies we have learned to help with addition and subtraction this year. Choose a calculation from below and use it to write an addition or subtraction word problem for someone in your family to solve. Don't forget to mark their work!

$$35 + 20 =$$

$$55 - 40 =$$

$$215 + 200 =$$

$$531 - 300 =$$

$$264 + 21 =$$

$$173 - 29 =$$

## **Next week...**

- The current group of swimmers will continue their sessions next Monday.
- On Thursday, Sports Day for Key Stage 2 will be taking place in the afternoon. Children will need to wear their coloured PE kit and may want to bring a hat and sunglasses with them.
- We will also be completing a full run through of Sports Day activities on Wednesday morning, so children from Greenfinch can come in their PE kits like normal.
