

Week 11 - 2.12.22

### English Home Learning

The class have just finished the writing of their detective stories. I thought as writing has been more of a focus for the past couple of weeks that I would set a reading comprehension activity this week instead.

**CGP Reading Comprehension Book - pages 2 and 3 (sorry for the delay - it slipped my mind!)**

We have also been learning a poem from our class poetry spine to perform to others. Please continue to learn this off by heart, ready for our performance.

### [High Flight Poem To Learn Download](#)

**Spelling and handwriting - Words to learn from this week's spelling focus** - The children asked for Christmas words as this has been our handwriting practice this week.

SET A	
sledge	angel
candle	carols
icicle	peace

SET B	
baubles	reindeer
shepherd	frankincense
wreath	myrrh

### Maths Home Learning

This week has been the beginning of our new topic on fractions. So far we have looked at equivalent fractions, simplifying fractions and using this knowledge to place them on number lines.

Please complete the following page from your maths book:

**CGP Maths Targeted Question Book -Simplifying Fractions - page 18**

**CHALLENGES:**

8a. There are 60 red and blue balls in a ball pit. 21 of them are blue.

Represent this as a simplified fraction.

What fraction of the balls are red?

8b. There are 75 blue and yellow budgies in a cage. 18 of them are yellow.

Represent this as a simplified fraction.

What fraction of budgies are blue?

9a. Martha says,

I can simplify  $\frac{48}{100}$  to  $\frac{24}{50}$  because 2 is the highest common factor.

Is she correct? Prove it.
