

Spring Week 3 – 20.1.23

English Home Learning

The children have started a new unit of work this week, revolving around the book – ‘The Eye of the Wolf’. This is a great book for exploring viewpoints in a novel so we are using this text to enable us to end up writing a short story from a different viewpoint (linked to our Science unit on Evolution). This week, I’m setting some practice pages on areas covered in class since September.

Please have a go at the following:

English Grammar, Punctuation and Spelling Year 6 Targeted Question Book – pages 22 and 23 (subject and object) and page 5 (verbs).

Spellings

This week’s focus has been on the prefix – over-. It’s prefix meaning is : **too much or more than enough**. Please learn either Set A or Set B (or both)

SET A

helpful	thankful
awful	wonderful
beautiful	thoughtful

SET B

plentiful	deceitful
remorseful	reproachful
successful	resourceful

*Make sure you look up the meanings of any words you don’t know.

Maths Home Learning

This week, we have continued to learn about dividing fractions and we’ve also been learning to calculate fractions of amounts. I must apologise for the error in last week’s home learning for maths. In the CGP Maths Targeted Question book, the page number should have been 22 (not 20 & 21). Hopefully, you realised this and if not then feel free to add it to this week’s pages to complete.

CGP Y6 Maths Targeted Question Book – Pages (22) and 23

EXTRA MATHS CHALLENGE

Divide Any Fraction by an Integer

1) a) Find the values of the symbols.

$$\triangle = \square$$

$$\heartsuit = \square$$

$$\smiley = \square$$

2)

$$\frac{3}{7} \div \triangle = \frac{3}{28}$$

$$\frac{\heartsuit}{\triangle} \div 6 = \frac{3}{24}$$

$$\frac{\smiley}{9} \div 7 = \frac{2}{63}$$

b) What could the missing values be?

Find three different possibilities.

$$\frac{3}{7} \div \text{lightning bolt} = \frac{3}{28}$$
