

Spring Week 6 - 10.2.23 HAPPY HALF TERM TO ALL OF YOU!

This week, I am not setting 'official home learning' as you need to enjoy your holidays and take a break. However, please ensure you keep adding to those reading miles. Reading is good for relaxing the brain and we know how it really helps you in your learning across the curriculum.

Below are some optional activities to stretch your creative brains.

English

Following the workshop that I booked our class on yesterday, could you plan and write a story for the Blue Peter Amazing Author's competition. It would be lovely to think someone of you were inspired enough to give it a go! Remember 400 words isn't a lot so you will need to think about the quality of what you write rather than quantity.

Art

Next term, we will be focusing on how animals have evolved and zooming in on the the flora and fauna of North America specifically near The Great Lakes. Below are some different videos that show you how to draw key animals from that region. I can't wait to see what you produce. I might even produce my own artwork to bring in and show & tell! You can then use these drawing ideas to decorate your own work back in class.

Grey Wolf ... Moose ... Bald Eagle ... Black Bear ... Mute Swan
