

Spring Week 10 - 17.3.23

English and Maths

This week, the children have been doing their final complete set of SATs papers from 2022 for us to use to target specific learning in class. On Monday, I will send the last papers the children did home, so they can work on those questions that they missed marks on. They should've gone out Friday but we got a bit carried away with our Science afternoon and ended up with more cleaning up afterwards than intended - apologies for that.

Spellings

This week you learnt about words with the /f/ sound spelled 'ph'. Please learn either Set A or Set B (or both).

SET A	
graph	alphabet
dolphin	elephant
phrase	trophy

SET B	
pheasant	physically
pamphlet	spherical
emphatic	symphony

*Make sure you look up the meanings of any words you don't know.

Science - [British Science Week Poster Competition](#)

This week we have been taking part in British Science Week at school with a 'connections' theme.

As part of this celebration of STEM subjects, there is a British Science Week 2023 Poster Competition with some exciting prizes. If you would like to create a poster based on the connections theme for this competition, please submit your entry on A4 or A3 paper to your class teacher by Monday 27th March 2023.

You could possibly explore how are body parts are all connected and work together, the connection between our actions and the impact on the environment, or even how the internet connection has changed the world.

Full details of the competition can be found at <https://www.britishscienceweek.org/plan-your-activities/poster-competition/>.

Please note that the school is only able to submit the five best entries into the competition. There are categories for Early Years, Key Stage 1 and Key Stage 2. Your name, age and class should be clearly written on the back of your poster.

Good luck and get creative. 👍
