

Wagtail

Wagtail Class have settled back into Nursery life and have enjoyed meeting up with their friends once again. The children who were with us last year have been very welcoming towards those starting with us in September and already lots of new friendships are beginning to form. The children have especially enjoyed the opportunity to mix with the children in Wren Class, sharing the outside area. It has been so lovely hearing their conversations and laughter.

Wagtails have been extremely busy exploring the outside environment which has provided lots of opportunities for learning and finding out about the changing seasons. They have helped to plant winter vegetables and bulbs, which we are all looking forward to seeing once grown in the Spring.

We have had lots of fun learning about Space, the children helped tell the story, Whatever Next, using the story props.
